

Yuba Forest Network

Quarterly Stakeholder Meeting

August 6, 2020

*Please remain muted.
If joining by phone, mute/unmute by pressing *6.*

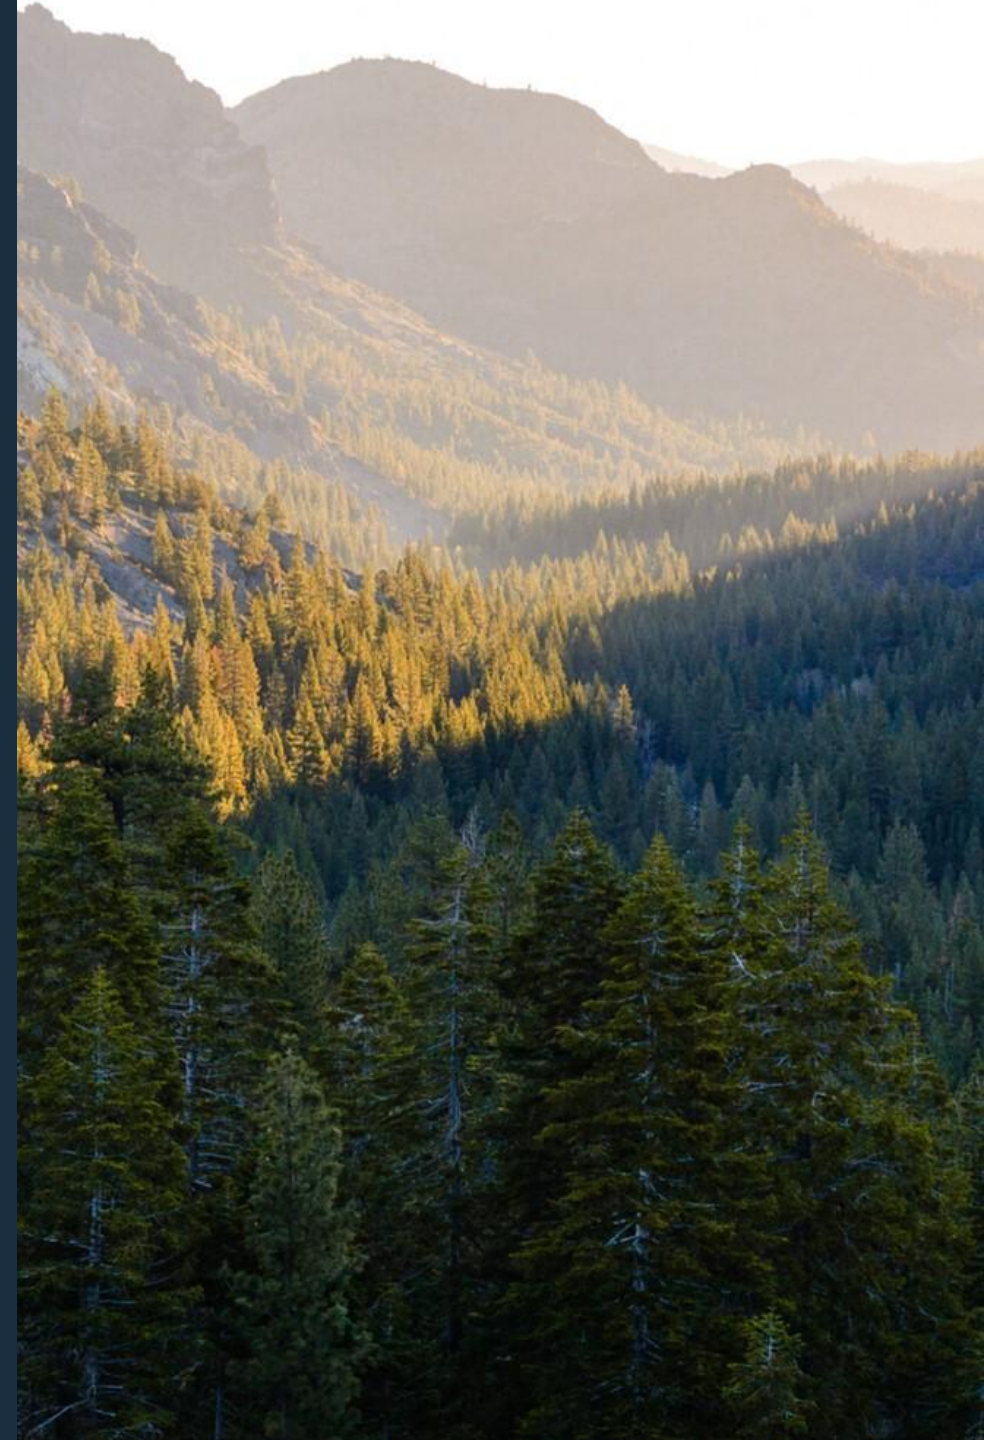

Welcome!

Please introduce yourself in the chat box:

- Name
- Organization/Agency

Agenda

1. **Welcome & Introductions** - 5 min
2. **Announcements** - 10 min
3. **Regional Prescribed Burn Associations: Yuba-Bear Burn Cooperative** - 10 min, 5 min Q/A
Presenter: Jamie Ervin, Sierra Forest Legacy, Fire Restoration Advocate
4. **Yuba Forest Network Strategy for Forest Resilience** - 15 min, 10 min small group breakout
Presenter: Mary McDonnell
5. **CA Governor's Task Force Update: Emerging Regional Framework** - 15 min, 10 min Q/A
Presenter: Patrick Wright, Governor's Forest Wildfire and Forest Resilience Task Force, Director
6. **Next Steps** - 5 min

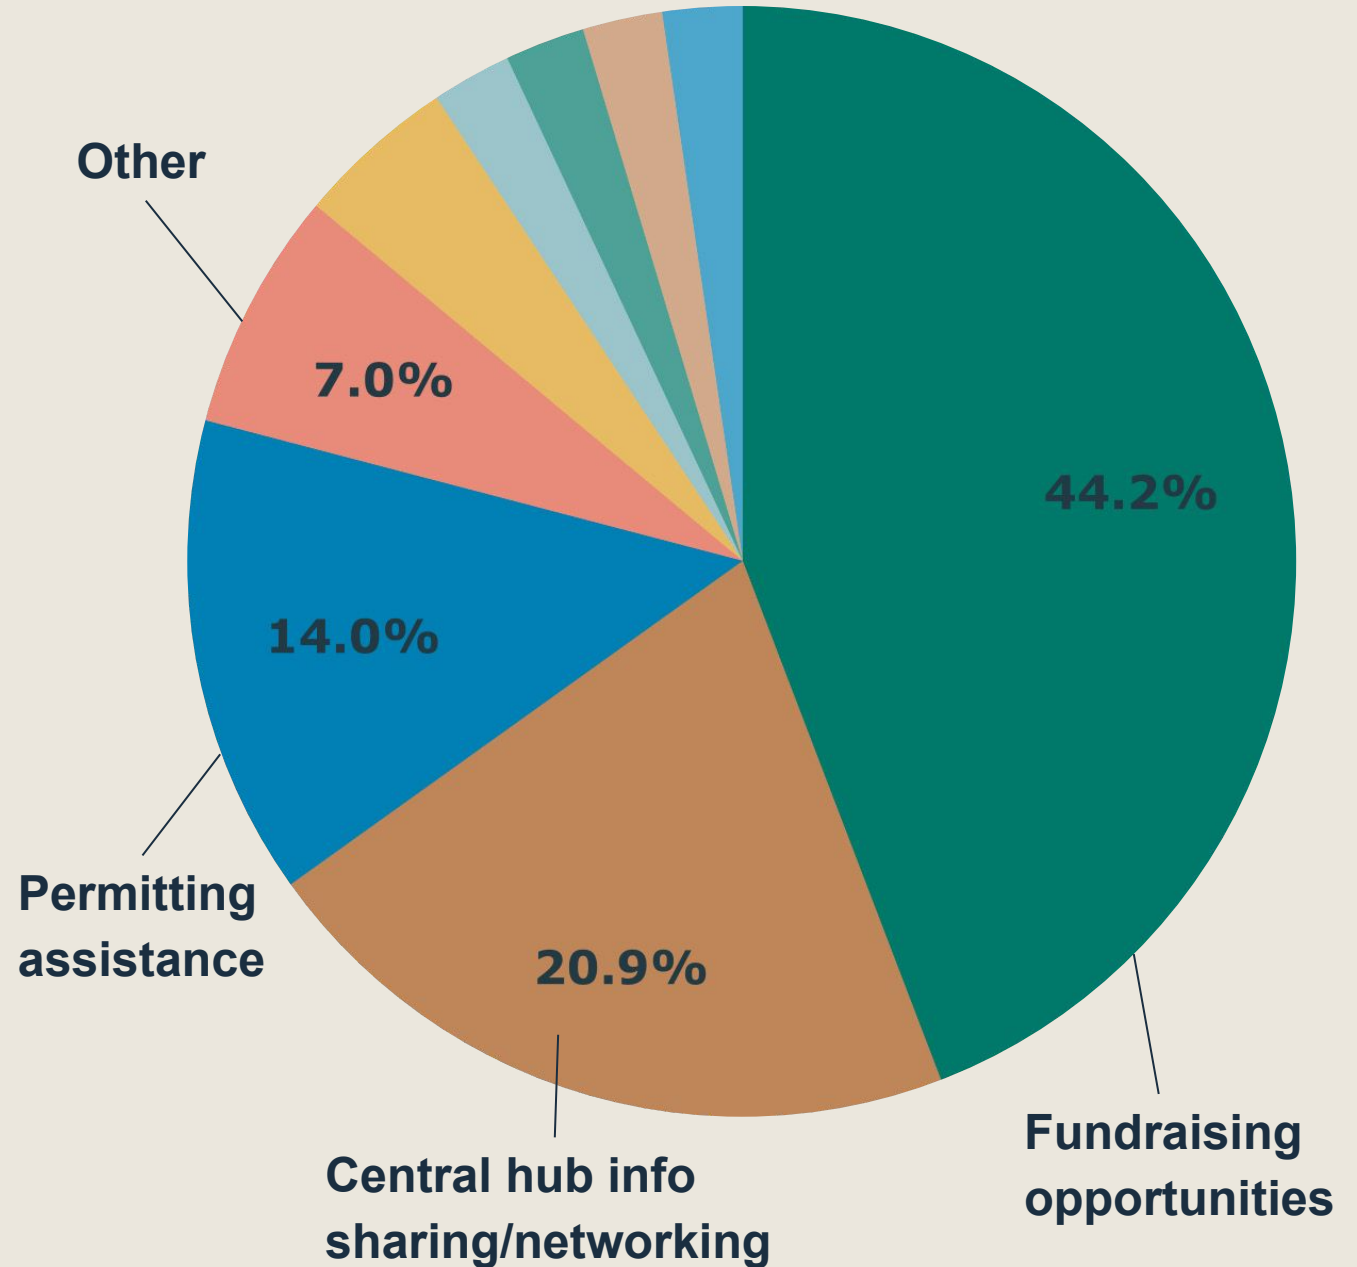

YFN Strategy for Forest Resilience

A regional shared vision for landscape-scale forest resilience.

YFN Needs in Review

What resource would be the most **useful** in increasing the pace and scale of forest restoration work for your organization?
- May 2020

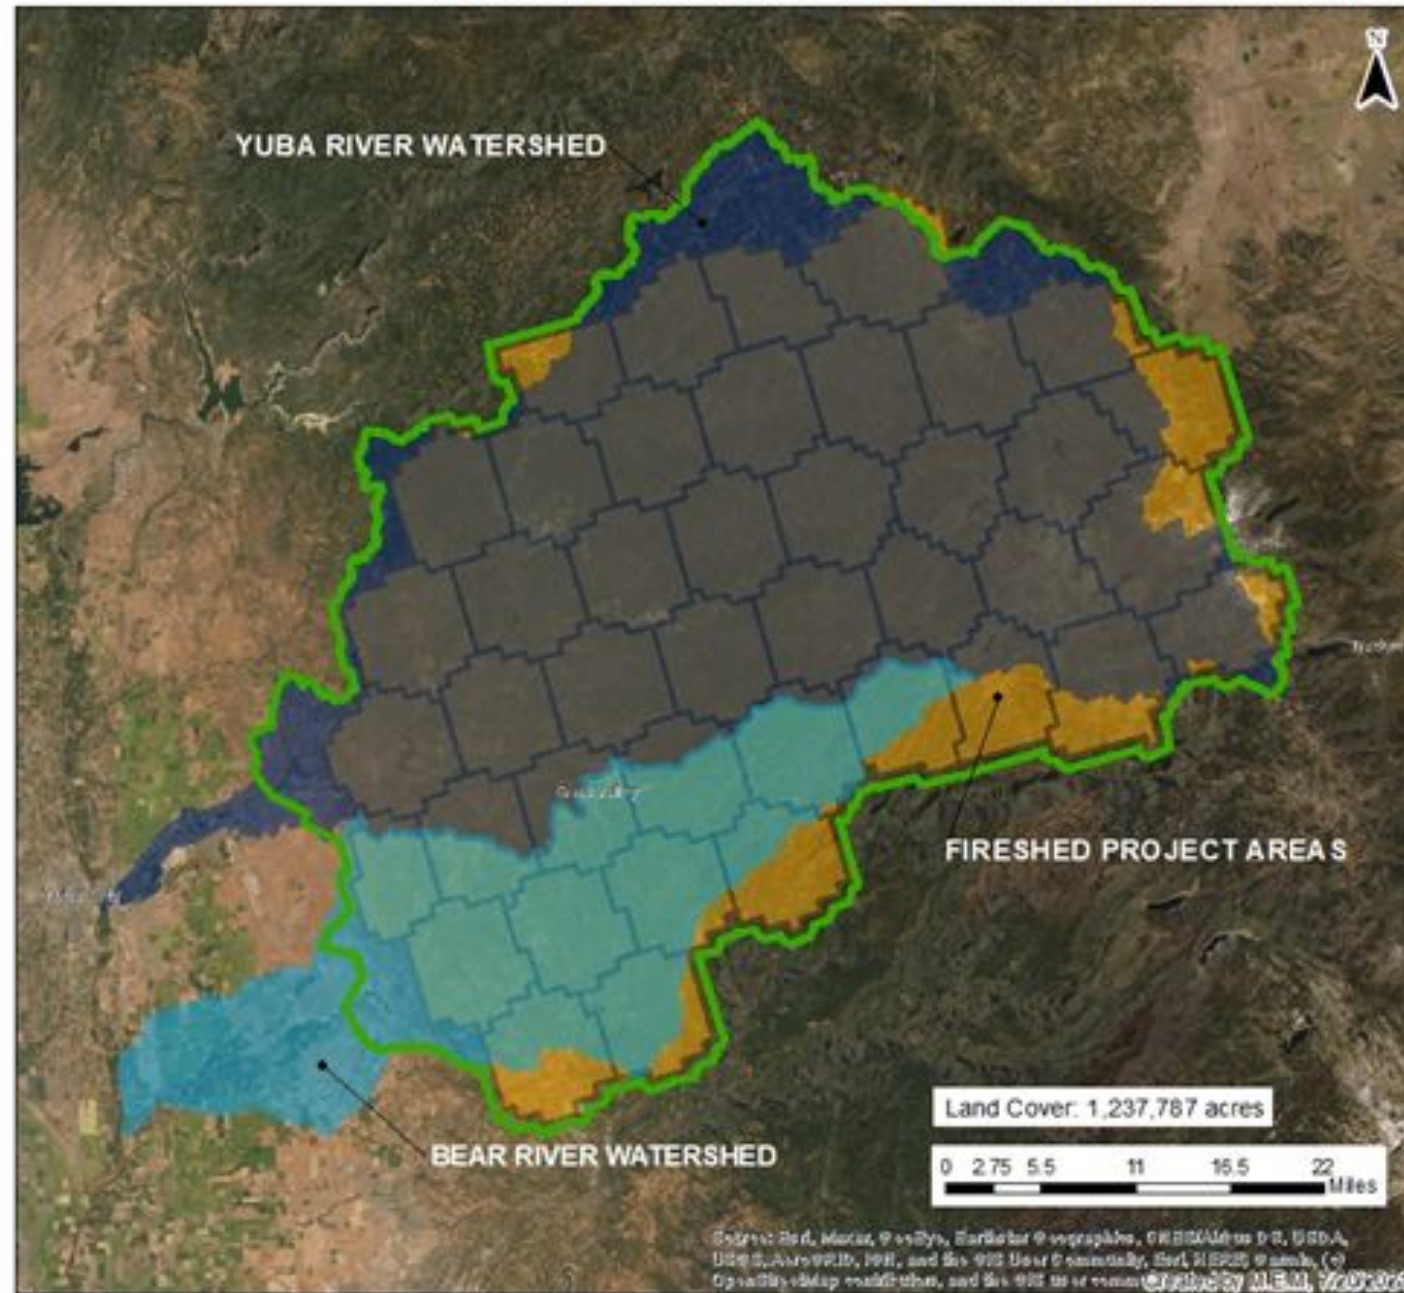

YFN Strategy for Forest Resilience

I. Introduction

- A. Yuba Forest Network
- B. Region of Influence
- C. Tahoe Central - Sierra Initiative
- D. Purpose

Yuba Forest Network Region of Influence

Strategy for Forest Resilience

- I. Introduction
- II. **Desired Outcomes by Pillar**
 - A. Pillar
 - 1. Intro/Shared Vision
 - 2. Regional Significance
 - 3. Desired Outcomes

Strategy for Forest Resilience

- I. Introduction
- II. Desired Outcomes by Pillar
- III. **Actions towards YFN Forest Resilience**
 - A. Identified actions/needs organized by desired outcome

Actions

Forest Resilience

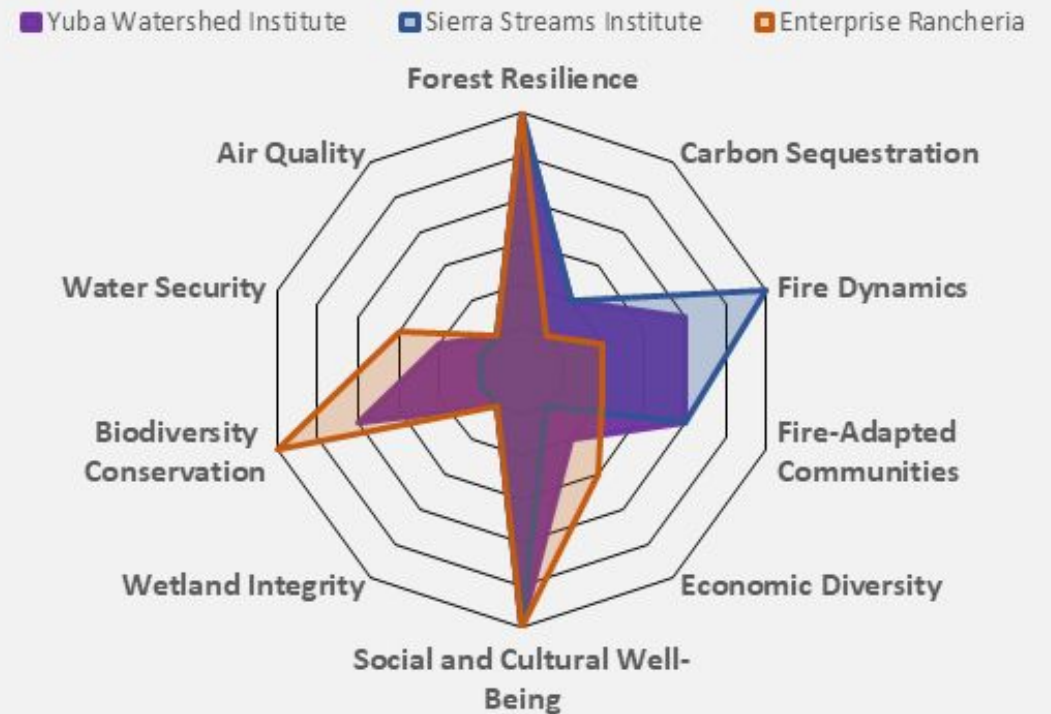

Desired Outcome: Forest ecosystems are able to recover from disturbance, achieved via active stewardship with the health and resilience of the forest itself as a priority.

Consolidate regional planning and monitoring efforts to build a standardized approach with clear directives and resources from state agencies such as CA Department of Fish and Wildlife, Wildlife Conservation Board, Department of Conservation, and Tahoe Central-Sierra Initiative.

Strategy for Forest Resilience

- I. Introduction
- II. Desired Outcomes by Pillar
- III. Actions towards Regional Forest Resilience
- IV. **Strategic Actions by Key Partners**
 - A. Organization
 - 1. Current/Planned Actions
 - 2. Pillars Emphasized through Actions
 - B. Need for Collaboration

Combined Pillars of Resilience Emphasized through Actions:
Partners of the YFN

Strategy

- I. Introduction
- II. Desired Outcomes by Pillar
- III. Actions towards Regional Forest Resilience
- IV. Strategic Actions by Key Partners
- V. Acknowledgements
- VI. Appendix
 - A. Maps
 - B. Figures
 - C. Sources

AUGUST 2021

A Resilience Strategy for Yuba Forests

A regional shared vision for landscape-scale forest resilience
presented by the Yuba Forest Network

Made possible with funding from the California Department of Conservation
Watershed Coordinator grant program and the Yuba Water Agency.

PREPARED BY

Mary McDonnell, South Yuba River Citizens League

Strategy for Forest Resilience

- I. Introduction
- II. Desired Outcomes by Pillar
- III. **Actions towards Regional Forest Resilience**
- IV. Strategic Actions by Key Partners
- V. Acknowledgements
- VI. Appendix
 - A. Maps

Yuba Forest Network Stakeholder Mapping Project

A resource for all stakeholders of the Yuba Watershed and Nevada County

Who we are:

The Stakeholder Mapping Project is lead by the South Yuba River Citizens League's (SYRCL) [Yuba Forest Network](#) in collaboration with the [County of Nevada Office of Emergency Services](#). We hope this map will serve as a resource for cross-boundary collaboration.

How to use:

Click individual parcels for project details.

Explore the legend, print the map, navigate to bookmarked locations, change the base map, and search a location in the box located in the top right corner.

To have your project(s) added, please submit [here](#).

Questions or comments? Leave feedback [here](#).
