

WILD & SCENIC[®] FILM FESTIVAL

where activism gets inspired

K-2nd Grade School Program

Film Descriptions

Tails on Ice

10:44

This heart-warming story set in the coldest of climates follows Ellesmere, a fit and instantly loveable Canadian Inuit yearling sled dog as she sets off on her first training expedition and rite of passage. She must learn the survival skills from the matriarchs that came before her. Running on the Great Slave Lake is no easy task. Whatever happens, Ellesmere will find that every dog has a place in the pack.

Cool for You

3:00

"Cool For You", an animated film based on the book of the same title, explains global warming to children in a friendly way. Incorporating different characters and families, animals and plants, children are introduced to CO₂, and positive, easy ways to improve our impact on the earth.

Plastic Pandemic

2:10

This short PSA created by our fall Huliau Environmental Filmmaking Club students outlines ways in which the COVID-19 pandemic has been contributing to plastic pollution globally. The students also share ways in which we can all avoid these additional single-use plastic items and prevent the global "plastic pandemic" from getting worse.

Bad Bugs

2:00

10 year old Bryn made a claymation movie about the importance of using "natural solutions for your bug problems" - something she's passionate about. Bryn loves the environment and all creatures, but also makes a point to clarify that "My movie is not violent... it's just the circle of life."

Imara

6:41

Hal, a first time wildlife filmmaker created this film during a one month internship in South Africa. This is a story of survival amongst lions, showing the strength and fragility of family relationships and status within the pride.

Kayak

6:11

On a peaceful summer day, a dad takes his baby son on a kayak day trip. Between the challenges of a first river outing and the baby's whims the father will not have a relaxing day, especially when an eagle joins the adventure.

Total Run Time: 30:36
